To break a mirror will give you seven years bad luck.

Some people once believed if harm befell the image in a mirror it would also harm the person.

MAGICALLY mirrors are said to reflect or re-direct negativity.

Brides should not look at their own reflection in a mirror when trying on their wedding outfit (specifically if wearing the veil) as it will endanger the happiness of the marriage.

Vampires are said not to throw a reflection in a mirror - no soul, no reflection.

Mirrors are covered in the house where there has been a death, so the soul is not trapped within, instead of going on to the next world.
